b. The question of indexing [REDACTED] was also raised and the Director stated that he was convinced that the effort to compile a full index would be out of proportion to its use; however, he did not want to drop this subject entirely and asked Mr. Amory to keep it under consideration.

c. the Director mentioned a paper concerning the Honor Awards Board which Mr. Kirkpatrick had written and said that this looked all right to him, whereupon he signed off on it. However, before it was to be disseminated he asked that it be distributed to each Deputy Director for any comment that they might like to make. H

2. Dr. Tietjen gave me a brief report on his recent trip. In general he found things to be in very good shape.

far with this I wanted a brief paper from him setting forth the essential facts in connection with not only this construction but also the auxiliary wing for our new building and the permanent construction program [REDACTED] I do not think that we should go forward with all three of these projects, and, before we do too much work on any one of them, I should like to get some guidance from the Director with his desires as to priority.

6. Dr. Tietjen brought back a message from [REDACTED] to the effect that he thought he might be able to combine the jobs of the Deputy Chief of Support and Legal Counselor in [REDACTED] if we could supply him with the right kind of man. (I understand that a dispatch has also been received to this effect.) George has reservations to return to the States on a ship sailing from [REDACTED] on 17 June 1960 and would like it to be known that he is available for the position of Chief of Support at [REDACTED]
